## Natural nutrition is fountain of youth

WALLA WALLA UNION-BULLETIN

Friday, November 26, 2010

Elizabeth Kovar's warning about skin care and other personal care products published in the Union-Bulletin Friday Nov. 5 opened up a host of serious health results that can be prevented by changing brands.

So if staying younger longer is part of your mission the first thing to consider is your nutrition.

I found the fountain of youth in a natural nutrition therapy for the skin on the outside and an anti-aging natural supplement for the inside.

Recently at the Chamber of Commerce event at Harvest Foods someone asked me, "Where have you been?" I hadn't been on any trip so I said, "Why do you ask?" She said, "You look so healthy and vibrant." Proof that by switching to a safe natural brand with guaranteed results is the answer to healthy skin and a healthy body.
